Bengaluru, India | +91 7892003865 | aishwarya153009@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

ECE undergraduate (CGPA: 8.63) with strong analytical and problem-solving skills, experienced in Python-based data analysis, machine learning, and technical document processing. Interested in technology research and engineering applications.

TECHNICAL SKILLS

- **Languages:** Python, C, C++
- **Core Subjects:** Digital Electronics, Analog Electronics, OOP, DBMS, Operating Systems, Computer Networks
- **Programming & Data:** SQL, NumPy, Pandas, Regex
- **Machine Learning / Data Analysis:** Scikit-learn, Matplotlib, NLP, TF-IDF, Cosine Similarity, Information Retrieval, Isolation Forest
- **Generative AI / Information Retrieval:** RAG, FAISS, LangChain, Hugging Face Embeddings, Google Gemini
- **Embedded / Engineering Exposure:** Embedded Systems, Hardware Interfacing
- **VLSI / EDA Tools:** Cadence Virtuoso
- **Documentation / Tools:** LaTeX, Overleaf, Git, GitHub, VS Code, Jupyter Notebook, Streamlit

EXPERIENCE

Intel Unnati Industrial Training 2025

May 2025 – Jul 2025

Project Trainee

- Developed a Python and Tkinter healthcare monitoring application supporting patient history lookup, vital monitoring, and healthcare recommendation workflows.
- Implemented symptom-based doctor recommendations and seasonal health suggestions using structured CSV datasets and Python-based data processing.

PROJECTS

DocuMind – AI Document Intelligence Platform | [GitHub](#) | [Live Demo](#)

Python, Streamlit, LangChain, FAISS, Hugging Face Embeddings, Google Gemini Flash

- Developed a document intelligence application with multi-PDF upload, summarization, semantic search, document analytics, and RAG-based question answering.
- Implemented a LangChain-based RAG pipeline using FAISS, Hugging Face embeddings, and Google Gemini Flash for question answering over retrieved document context; tested with 100+ PDF documents.

RecruitAI – NLP-Based Resume Screening & Candidate Ranking System | [GitHub](#)

Python, Pandas, Scikit-learn, NLP, TF-IDF, Regex

- Developed a resume screening and candidate ranking system that analyzed and ranked 2,484 resumes against job descriptions using TF-IDF vectorization and cosine similarity.
- Extracted technical skills from resumes and job descriptions using Regex and exported ranked results to CSV.

AeroStream – Aerospace Telemetry Analytics & Anomaly Detection Platform | [GitHub](#)

Python, Pandas, NumPy, Scikit-learn, Matplotlib

- Developed a telemetry analytics platform generating and processing 500 simulated flight telemetry records across 5 parameters: altitude, velocity, temperature, latitude, and longitude.
- Implemented Isolation Forest-based anomaly detection and telemetry visualization using Pandas, Matplotlib, and Scikit-learn.

EDUCATION

Nitte Meenakshi Institute of Technology, Bengaluru

Sep 2023 – Jul 2027

B.E. Electronics and Communication Engineering | CGPA: 8.63 / 10

LEADERSHIP & CERTIFICATIONS

Google Developer Group (GDG), NMIT – Content & Documentation Co-Lead (Core Team)

Certifications: NPTEL IIT Madras – Data Science for Engineers (Elite); AWS Academy – Machine Learning for Natural Language Processing; IITM Pravartak – AI/ML Using Python; NASSCOM – Embedded Software Development & Testing (Phase 1)
